Cath By Retention

Senator McCarthy's charges about Communists in the State Department have been so vague, so numerous and so conflicting that the Foreign Relations Subcommittee assigned to investigate them was understandably perplexed as to the scope of its responsibilities. Originally, Mr. McCarthy spoke in the present tense of 205 persons now working in the State Department who were known by the Secretary of State to be members of the Communist Party. Then Mr. McCarthy sent a telegram to the President asserting that "we have been able to compile a list of 67 Communists in the State Department." The list has now mysteriously expanded to 81, but with this significant distinction, that an unspecified portion of the 81 are not now members of the State Department at all, although, according to the latest bulletin from Mr. McCarthy they were once employed there.

Four persons presumably included in the Senator's list have been named by him. They were named, however, in a public speech where he lacked the protection of congressional immunity, and slander being actionable, he took the precaution to say to a reporter, "You will notice I didn't call them Communists." Everybody noticed. Of the four named by the Senator, one has never been a State Department employe, two others have not been in the department since 1948 and the fourth has been cleared by a grand jury that investigated charges brought against him. A fifth individual, identified as on the McCarthy list, was given an unqualified clearance when he worked for the department in 1947 and has been investigated by the FBI and cleared again for his present job on the White House staff.

No one doubts that the State Department at one time employed persons who were security risks. But it purged these persons long ago. If Senator McCarthy's charges are intended to prove only that the department has long since admitted and corrected, they will be even more pointless than they now appear. There seems to be no alternative, however, to a patient, thorough examination of them along the lines promised by Senator Tydings' subcommittee. But certainly this examination should not expose to further calumny persons whose loyalty has already been incontrovertibly established. The subcommittee should be able to expose Senator McCarthy without exposing innocent persons whom he has tried to victimize. It seems to take the view that if assertions are repeated often enough they will take on the color of credibility even when they deserve no credence.

Secretary Acheson's commendable statement that he would welcome an investigation of his department's personnel should not be taken to mean that he—or the President—will surrender to the subcommittee the FBI's confidential reports on his employes. These cannot be given to any congressional body without doing wanton injury at once to the FBI, to the individuals who were the subjects of its investigations and to vital national interests. Senator Ferguson seems bent upon precipitating a senseless conflict between the executive and legislative branches of the Government through an attempt to secure these confidential reports by subpoena. We hope that the Senate will be wiser than to press so destructive a demand.

Large amount of the Post's solicitude!

LOYALTY OF GOVERNMENT EMPLOYEES

Recently, SAS [redacted] and [redacted] of this office, pursuant to Bureau instructions, were in contact with [redacted] who is associated with [redacted] New York, New York. [redacted] made available his files, which were examined for information which might be pertinent to the Loyalty investigations on PHILIP C. JESSUP, JOHN STEWART SERVICE [redacted] and HALDRE HANSON [redacted]

During this examination, the agents came across the enclosed photostatic document which is entitled "Photostats of Excerpts From Chief Investigator's Report of State Department Loyalty Files." There were two copies of this document, the one enclosed with this letter and another copy which appeared to be either an original or a very clear mimeographed copy. It is noted that this document appears to be incomplete since it contains sections which are numbered 8, 9, 10 and 17. From the nature of this document it will be observed that although it is not marked confidential, it does appear to contain information of a type which probably was not intended to be disseminated outside of the State Department. There was nothing with this material that would indicate its significance or the reason for its being among the records of [redacted]

When the agents happened upon this document, they asked [redacted] who has been extremely cooperative in making his files available to this office, where he obtained it. Although he gave a rather evasive answer to this question, he very readily, at the request of the agents, offered to give them this photostatic copy of the document. Furthermore, he did not seem concerned with the fact that this document was in his files nor did he make any effort to conceal its presence there.

Although it is possible that the Bureau may already know of the existence of this document, it is being furnished to the Bureau in the event that the Bureau desires to confidentially advise the State Department of the fact that there are copies outside of the State Department.

It is also desired to call attention to comments made in Item #10 of the document where reference is made to investigations to be conducted, presumably by State Department investigators, concerning State Department employees who have signed Communist Party petitions, it being noted that

such investigations are within the purview of Executive Order #9835 and within the Bureau's primary investigative jurisdiction. It is also noted that the subjects of these investigations are not referred to by name but are referred to by case numbers and that these numbers may be identical with those used by Senator MC CARTHY in referring to certain employees of the State Department who, he alleges, are Communists.

This office does not contemplate any further action concerning the enclosed document in the absence of instructions to the contrary from the Bureau.

Enclosed herewith are two photostatic copies of four communications pertaining to captioned subject recently received by United States Senator JOSEPH McCARTHY. The originals of these photostats were made available by [REDACTED] who is presently employed by Senator McCarthy. The originals have been returned to [REDACTED]. The pencilled notations appearing on these photostats were placed there by [REDACTED].

In furnishing these communications [REDACTED] requested that Senator McCarthy's office be fully protected in the event investigation is initiated or reopened on the basis of these documents. He particularly requested that the identity of his source be protected, pointing out that he has not secured authorization from this individual to turn this data over to the FBI.

The Washington Field Office files contain no information with respect to [REDACTED] the writer of these letters, or concerning [REDACTED] who is mentioned in these letters.

One photostatic copy of these documents is also being forwarded to the Baltimore Office and to the San Francisco Office for their information.

PURPOSE:

To advise you of the results of an inquiry to determine the status of individuals referred to as "agents" and "Communists" in a chart of alleged pro-Soviet individuals mentioned by Senator McCarthy before the Senate on June 6, 1950. In brief, all have resigned from Federal employment except three who have been investigated by the Bureau as subjects of LGE or VOA cases, one who has been suspended without pay as the result of an LGE investigation, and one who was last known to be employed by the Army overseas and whose status will be checked by liaison. *Y*

BACKGROUND:

You will recall that Senator McCarthy on June 6, 1950 made a statement before the Senate to the effect that three or four years ago the FBI supplied the State Department with charts and diagrams purportedly showing pro-Soviet individuals in the State Department. Inquiry disclosed that the chart was prepared by a State Department employee. It purported to show the number of "agents", "Communists", "sympathizers" and "suspects" in the State Department. On Bureau instructions, the Washington Field Office has checked the names of those persons listed as "agents" and "Communists" against State Department and CSC files and has ascertained that all of the individuals mentioned are no longer employed in the Federal Government with the following exceptions:

[REDACTED] - employed by Army. Has been subject of LGE investigation.

[REDACTED] - employed by State. Has been the subject of VOA investigation.

[REDACTED] - employed by State. Has been the subject of LGE investigation.

[REDACTED] - Suspended 5-12-50 from Army as result LGE investigation.

[REDACTED] - last known to be employed by Army in Tokyo, Japan. Has been the subject of LGE investigation.

RECOMMENDATION:

RECORDED - 27

AUG 11 1950

It is recommended that the Liaison Section determine through appropriate channels whether *[REDACTED]* is still employed by the Army in Tokyo. It is to be noted that she entered on duty on May 17, 1947 as a Foreign Liaison Officer *[REDACTED]*

in Tokyo and in 1948 she was investigated under the Loyalty Program at which time her position was that of Assistant Chief, Department of the Army, Far East Command, San Francisco, California.

ALLEGED COMMUNISTS IN THE STATE DEPARTMENT
ALLEGATIONS BY SENATOR JOSEPH R. MCCARTHY
LOYALTY OF GOVERNMENT EMPLOYEES

ReBulet June 23, 1950.

The files of this office, the records of the State Department, and the Civil Service Commission were checked in an effort to determine if these individuals are presently employed by the Federal Government. There follows a summary of the action taken by this office concerning each of the individuals listed in referenced Bureau Letter.

WFO - The latest information appearing in the files of this office concerning this individual reflects that as of May, 1947, he was employed at the Department of State. However, there is an indication in the file that State was contemplating discharging [REDACTED]

CSC - The records of the Civil Service Commission reflect that [REDACTED] resigned from the State Department on June 23, 1947. These files reflect no subsequent information concerning this individual.

State - A review of [REDACTED] personnel file at the Department of State reflects that he resigned on June 23, 1947. There is no additional information appearing in this file which would indicate that he is seeking employment with another Government agency or that he has been employed by the Federal Government subsequent to his resignation.

WFO - The files of this office failed to indicate the present employment of this individual, and the last known employment was with the Department of State.

THE JOHN RANDOLPH HAYNES AND DORA HAYNES
FOUNDATION

2324 SOUTH FIGUEROA STREET, LOS ANGELES 7, CALIFORNIA

Mr. J. Edgar Hoover,
Federal Bureau of Investigation,
Washington, D. C.

My dear Mr. Hoover:-

Allegation by Senator

Along with many loyal American citizens I am greatly troubled by the method employed by Senator McCarthy in what seems to me slanderous and careless inquisition. For a long time I have thought it was just that and while regretting the evil done, the confusion, the tragedy of the destruction of the reputation of decent men, I have regarded his tactics as those of a ruthless politician and nothing more. But I am not so sure.

Having complete confidence, and many reasons for it, in the Federal Bureau of Investigation and you, sir, I am writing this letter, probably putting you in mind of possibilities which are already intelligently considered.

This is what is in my mind: When a leading communist repudiates his position and turns informer, I am suspicious of him. He should exhibit what the church calls "contrition" and seek to efface himself until he has proved his loyalty and worth.

If I were a communist, knowing something of their methods, I would pick out a top communist and arrange for him to repudiate communism and then use him to destroy the reputation of honest and for me, dangerous liberals. So I, for one, do not trust Prof. Budenz.

Also I would want to inquire pretty carefully into the record of Senator McCarthy and seek to discover if his behavior arises merely from cruel carelessness and nothing else, or if it is the result of some kind of employment as an agent serving other than the causes of the good of our land.

Believing as I do that our faith must be tested in our living and that the United States is entering a period of greatest concern I wish as one item to go on record that the present slandering is producing in our country exactly the situation which an enemy could wish.

May I commend you and your associates and express the wish that somehow through the prestige of the FBI this kind of evil might be overcome by the confidence in your investigation and assurance.

I beg to remain,

Sincerely

July 26, 1950

THE HAYNES FOUNDATION

THE HAYNES FOUNDATION is an organization which devotes itself to research and education. It was founded and endowed by Dr. John Randolph Haynes and his wife, Dora Haynes, who were active and progressive citizens of Los Angeles during one of the city's important developmental periods (1887-1937).

The Foundation attempts to reflect directly the interests of Dr. and Mrs. Haynes by focusing its resources on the fields which particularly concerned them:

1. Problems in economics, government, and sociology.
2. The specific application of these problems to the Los Angeles area.

Within this framework the Foundation has been active since its founding in 1926 in sponsoring research, publishing its findings in both academic and popular form, supporting pertinent research of others, developing a special library in its area of interest, and carrying on a program of community education.

Research

- The following research projects, made possible by Haynes Foundation funds, indicate the kind of problems being explored by the organization:
- The economic resources of the area and the directions in which its future growth will occur.
 - Comparative manufacturing, production costs for major industries in six industrial areas—including Los Angeles.
 - How the behavior of business cycles varies among the same six industrial areas.
 - The effects of business cycles on the political and social problems of this area.

- How the populations of areas within Los Angeles differ from one another in terms of social rank, urbanization, and segregation.
- The history of the labor movement in Los Angeles, presented in a three-volume study which traces the movement's growth from its beginnings in the latter decades of the nineteenth century to the present time.
- The governmental structure of the Los Angeles region; the complex interrelationship between the city proper, the county, and other municipalities.

- The facilities of the Los Angeles community: its physical assets; how its people work and live; its problems and how they are being solved.

- What it costs a moderate-income family of four to live in Los Angeles, and what a typical budget for such a family would be.

- The city's need to rebuild its blighted areas—with a detailed plan for the redevelopment of one section of those areas, Chavez Ravine.

- What this state's experiences have been with the California Unemployment Insurance Act; what it means to the employee, the employer, the community.

- What problems have been presented by the changes in size and composition of California's population during the eventful 1940-1950 decade.

- The special interest of this area in the economic and sociological needs of the aged, as reflected in its experiences under the Old Age Assistance program.

- Some of these studies have been completed and reports based on the findings have been published. Others are still in progress.

Fellowships and Grants-in-Aid

The Foundation is interested in helping graduate students and young faculty members in California colleges and universities who are undertaking studies which are closely related to the Foundation's own research program. To aid such studies, the Foundation annually awards several fellowships of \$2,000 each to candidates for doctoral degrees and grants-in-aid of \$2,500 each to faculty members.

Haynes Foundation Lectureship

Each year the Foundation brings to one of the Southern California universities or colleges a distinguished scholar in one of the social sciences who gives a series of three lectures on some important problems of contemporary American life. Each series of lectures is subsequently published by the Foundation. Through its lectureship program the Foundation brings to the region scholars of the stature of Dr. Harold G. Moulton, President of The Brookings Institution and Professor Arthur Schlesinger, Sr., of Harvard University.

Library

The Haynes Foundation Library is a specialized collection of books, periodicals, reports, and pamphlets which relate to the specific fields in which the Foundation's studies are made. The nucleus of the library was the personal collection of Dr. Haynes; as it has grown, it has retained the founder's original emphasis on materials dealing with local and regional problems. The papers of Franklin Hitchborn have recently been added to the collection of source materials. These cover his fifty years as legislative reporter at Sacramento and include many rare documents. The library is a reference, rather than a circulating, collection. Its facilities are available for use by students and interested members of the community.

Community Education

The Foundation has enlarged the audience reached through its work by participating in a weekly radio program, "The American Way," which it has been co-sponsoring with Station KFI since 1948. This is an open-forum program in which authorities in their respective fields are invited to discuss current issues.

The organization's program of community education is also carried out to be a continuing liaison between its staff members and educational, professional, and community organizations which share its concern with building a better region.

The foregoing program is administered by a board of nine trustees. Through the program the Foundation attempts to interpret concretely the humanitarian principles of its founders in terms of fact-finding, widespread education.

The Hon. Helen Gahagan Douglas,
The House of Representatives,
Washington, D. C.

Dear Helen:-

We have just read Mr. Baruch's statement of the fundamental necessity of marshalling all our resources to meet this ruthless determined power arrayed against us. Secretary Louis Johnson has made a grave, almost unforgiveable blunder, in his attempt to economize on military expenses and now he tells us that all will be smooth in a month or so. Something should be done with that man!

Senator McCarthy keeps finding the absolutely sure shot cases in the State Department, — and now another. Having had my own instruction through my job in the last war in the spy trials and knowing something about the FBI I am sure a sincere seeking to cleanse the government of communists should be directed by that organization.

I can think of nothing stupider than this discrediting of governmental agencies, unless it is the attack on "intellectuals". Its gotten to be so now that the words "college", "scientist", "Intelligencia", "professor", etc. in the minds of the average person are followed by the thought "subversive", "blackpot", and "fellow traveler", and such. That I hear from Cal-Tek and places like Cal-Tek make me to tremble tremble.

I wish somehow the entire country could be organized and all of us given our ticket of responsibility.

And Helen that takes me in. In the last war I had several responsibilities, among them, as you know the training of the Civilian Defense Leaders at Occidental for Los Angeles and the appointment of the Attorney General in this trial of suspicious looking Japanese.

Whatever I have or am that is of any use at all, the government can have. My heart bleeds for those young soldiers dying in Korea because some one up stairs blundered!!

Thank you for your letter in regard to your opponent.

God Bless you, dear Helen, and give us all wisdom and strength.

Affectionately

PURPOSE:

To point out the nature of a letter (with three enclosures) dated April 26, 1950, sent by [REDACTED] to Senator Joseph McCarthy and to recommend:

- (1) That copies of such communications be transmitted to Assistant Attorney General James M. McInerney;
- (2) That copies of such communications not be forwarded to the Immigration and Naturalization Service;
- (3) That such communications be referred to the Loyalty Section for such further action as may be indicated.

BACKGROUND:

By memorandum dated June 23, 1950, the Washington Field Office submitted photostatic copies of documents turned over to that Office by [REDACTED] investigator for Senator Joseph McCarthy. These documents consisted of a letter dated April 26, 1950 from [REDACTED] together with copies of a letter he forwarded to President Truman on January 5, 1950, a letter to him from [REDACTED] dated January 23, 1950, and a biographical summary concerning a Chinese national by the name of [REDACTED]

In his letter to Senator McCarthy, [REDACTED] criticizes the State Department, especially in China and urges support of the Chinese Nationalists in the defense of Formosa. He reports an alleged influx of 100 to 1,000 Chinese nationals into Vancouver and points out the ease of unauthorized entry into the United States without questioning. He also claims that for \$10,000 or \$20,000 entry into the United States can be arranged through State Department personnel in Hong Kong and suggests a check with [REDACTED] of that city. [REDACTED] also points out that there is a Chinese employee of the State Department in Hong Kong who has acquired tremendous wealth during the past six months. He accuses Mr. Strong, Vice Consul at Taipeh of pro-Communist statements and suggests a check of State Department personnel in Taipeh and Hong Kong. No mention of Owen Lattimore is made by [REDACTED] in any of his communications.

In his letter to Senator McCarthy [REDACTED] states that his letter is strictly confidential and asks that it not be presented openly unless an investigation of the State Department in Hong Kong can be arranged.

He expresses concern should it be given to the papers or shown to any investigating committee. He specifically requests that the letter not be published nor allowed to be used in any investigation. In their memorandum of transmittal dated June 23, 1950 the Washington Field Office pointed out that Senator McCarthy had particularly requested that the identity of his source be protected pointing out that he had not secured authorization from [REDACTED] to turn this data over to the FBI.

RECOMMENDATION:

1. It is recommended that single copies of these documents be forwarded to Assistant Attorney General McInerney. A memorandum to that effect is being attached hereto for your approval.
2. It is recommended that copies not be forwarded to the Immigration and Naturalization Service in the absence of more specific information concerning a violation within their jurisdiction.
3. It is recommended that this matter be referred to the attention of the Loyalty Section for such further action as may be indicated.

To point out a number of inaccuracies made by Senator Tydings in his remarks to the Senate regarding the subcommittee's investigation as reported in the Congressional Directory dated July 20, 1950, pages 10860 - 10868 incl.

BACKGROUND

Senator Millard Tydings (D) of Maryland, spoke on the Senate floor on July 19, 1950 at length concerning the subcommittee's investigation looking into the charges of disloyalty in the State Department. The Senator's remarks were covered in pages 10860 - 10872 of the Congressional Record dated July 20, 1950. However, only pages 10860 - 10868 have been reviewed in connection with this memorandum since page 10869 has previously been reviewed and analyzed in a separate memorandum from you to the Director in the Jaffe Case dated July 21, 1950.

The following inaccuracies are noted in the remarks of Senator Tydings:

Page 10867 - Column 1

Senator Tydings quoted President Truman as saying, "I will get a summary of that file (Owen Lattimore) made by Mr. Hoover. You can believe him, can you not?"

Mr. Tydings said he had answered in the affirmative, then stating that, "we had Mr. Hoover read this file, amounting to 14 pages."

Comment

The Senator's statement is inaccurate. What the Director produced was an eleven (11) page summary of the investigation conducted as of that date (3-22-50).

RECORDED -

121-23878-21
AUG 11 1950
1956
AUG 18 1950

In speaking of Senator McCarthy's charge that the files of the State Department had failed to substantiate his allegations of Communists in the State Department because the files had been "raped," Senator Tydings told of his actions taken to determine whether such was the case. He advised that he had called the Department of Justice and told the Department that he wanted the FBI to go to the White House and check the files to see whether or not they had, in fact, been stripped. He continued that upon learning later that Attorneys from the Department of Justice had checked the files and not the FBI, he again called the Department and stated that he wanted the FBI itself to check the files to determine whether there was any material missing from the State Department files. Senator Tydings then told of a letter which he had received from the Attorney General advising that FBI Agents had made an examination of the State Department files. He said the Attorney General's letter to him advised that the examination of the State Department files made by the FBI disclosed that the files contained all FBI reports and memorandums furnished to the State Department in all cases prior to the time they were turned over to the Tydings Committee, with the following exceptions, regarding which the Federal Bureau of Investigation reported as follows --

"One file --

Case No. 51. 'File complete except summary, dated May 13, 1947, not in file, although substance of summary set forth in State Department investigative report dated July 19, 1947.'"

Comment

It is noted that Case No. 51 pertains to [REDACTED]

It is noted that Bureau memorandum to the Attorney General dated July 13, 1950, notes three exceptions instead of the one exception mentioned above. These three exceptions are as follows:

not an FOIPA deletion
deleted in file

[REDACTED]
File complete except no record of data furnished orally January 17, 1946, and October 24, 1946. No loyalty reports in file. LGE investigation conducted for Air Force.

"Case No. 16 - [REDACTED]"

File complete except no record of information orally furnished July 8, 1944.

"Case No. 51 - [REDACTED]"

File complete except summary dated May 13, 1947, not in file, although substance of summary set forth in State Department investigative report dated June 19, 1947."

Reference is made to the memorandum from Mr. Ladd to the Director dated July 14, 1950, attached, which reflects that Mr. Peyton Ford called and advised that the Attorney General had directed that he write a letter to Senator Tydings based upon our memorandum of July 13, 1950, reporting the results of a check that the Bureau had made on the State Department files. The memorandum of July 14th reflects that Mr. Palmer later brought the Department's proposed letter to Senator Tydings to the Bureau where it was reviewed by Messrs. [REDACTED] Ladd and Nichols. It is noted that this letter advised Senator Tydings that the FBI had found the State Department files to be complete except in three instances, and then the letter listed the three instances of incompleteness as noted in the Bureau's memorandum to the Attorney General.

Though Senator Tydings on the floor of the Senate on July 20, 1950, mentioned only one exception, that being Case No. 51, it is noted that in the other two exceptions brought to the attention of the Department by the Bureau in Cases Nos. 14 and 16, the information which failed to appear in the State Department files was information which had been orally furnished to the State Department.

SPECIAL INQUIRY

Allegations by Senator Mc Carthy

Re telephone call from Mr. D. M. Ladd, Assistant to the Director,
today.

In conformity with Mr. Ladd's request two agents of this office interviewed [redacted], Arlington, Virginia, telephone number [redacted], at his place of employment, Arlington, Virginia. During the course of this interview with [redacted] he was not advised of the nature of this inquiry but was questioned relative to his employment with the State Department.

[redacted] advised that he was an employee of the State Department from August 15, 1946, to December 31, 1946, on a temporary basis. He stated that he had a rating of CAF 3 and was assigned to the personnel department in the Walker-Johnson Building doing routine clerical work under the supervision of Mr. George Copp. He stated that during this time the State Department was adopting a new card system wherein pertinent employment data of each employee of the State Department was reduced to one card. He advised that there were about ten employees in his section. He advised that the procedure to the best of his recollection was that the personnel file of the various State Department employees were reviewed and that the pertinent data such as date of birth, military preference, date of employment, former employment, education, efficiency ratings was reduced to a hand written rough draft which was forwarded to the typing section. There the hand written information was typed on a permanent type card and returned to his section. There on certain prescribed portions of the edge of the card the various data typewritten on the card was punched so that the card could be selected by an IBM machine. [redacted] explained that this punch system worked very similar to the punch system employed by the Bureau in the Identification Division in fingerprint work.

[redacted] stated that at first his duties were to make the hand written memos but that subsequently he was assigned to checking work done by other employees. He also advised that at times he had been employed in reducing the employment data on the punch card.

He advised that he believed that there was a place for derogatory information but did not recall that he ever saw any derogatory information. He advised that the employees broke the files down into papers of a similar nature to facilitate the reduction of the necessary data to be placed on the punch card. He stated that most of the information that went on the card was contained on form 57 and he believed that on occasion this form 57 had been removed from the file and grouped in an endeavor to speed production. He advised that as far as he knew all of these personnel files were completely reassembled and returned to the original repository. He advised that all documents, papers and all forms were returned to the respective personnel folders and as far as he knew no papers of any kind were ever misplaced or permanently removed from the files. [REDACTED] stated that he could not recall ever seeing an F. B. I. report in any of the personnel files which came to his attention.

Mr. J. Edgar Hoover
Federal Bureau Of Investigation
Washington D.C.

Dear Sir:-

I have just read in the August 9th issue of "Pathfinder" page 16 column 2, where you said you wished anyone having any information about espionage, sabotage or subversive activities to contact the FBI.

Senator Mc Carthy has a lot to say about spies and the like but, even though we believe he is telling the truth, he gets nowhere but, rather, it suggests us, that he if made the laughing stock of many. In my own private life I were being told of something as dangerous to me as a Communist spy I would investigate to the limit instead of shrugging it off as of no consequence.

If a person as important as a United States Senator is treated in such a manner, how do you think we the common people would come out?

There are thousands of us in America who are loyal natural born Americans who would defend her with our last drop of blood. It is strange to me why the Government would tolerate Communist and other subversives when all it must do, to replace them with good men and women, would be to whistle.

Yours very truly

Department

The man to the left
of the V.V. Secretary I never
remember a chap named
Latchilan I knew in
the Veterans' Hosp. at Oteen,
N.C. I am not sure as
to the spelling of his
name, it may have had
an O in it. He
pronounced it
Latch-O-lus (LATCH-O-LUS).
I cannot remember his
first name, since we
called him ^{Hutch} Latch. I
knew him there at Oteen
in the summer of 1946.
He was ^{originally} from Louisiana
if my memory serves
me correctly. He informed
me that he was in
the State Department. He
was very active in
the A.V.C. at the time

I know him. His friends were considered slightly to the left by other patients of the "camp". They were liberals, but I do not believe that more than one of the group I knew called themselves communists. His group counted me to a certain extent because I do not conform to the usual rigid prejudices of Southerners. I have because of that been the target of radical and radical literature a couple of times.

When he asked me to join the A. V. C. I declined on the grounds that I did not care to become entangled in the negro question, because of the strong prejudices

I would encounter at home. We then told me that he might lose his position with the State Department because of his (political) activities. I thought at the time he was referring to more than the A V C and the negro question, but I could have been wrong. I do not know if he had communist leanings or not. I do know he looked at Russia through rose colored glasses, but whether ~~he~~ he was just trying to see both sides of the world ~~current~~ problems or whether he was with them in sympathies I cannot say.

I make no charges. "Letch" was a gentleman to me and only my extreme loyalty to my

seeing him ~~there~~ the
startling likeness there
beside I suppose he made
me realize that if
"Letch" really worked
for the State Department
perhaps my knowledge
of him should be checked.

Office Memorandum • UNITED STATES GOVERNMENT

TO : THE DIRECTOR

DATE: July 20, 1950

FROM : D. M. LADD

SUBJECT: REVIEW OF STATE DEPARTMENT FILES
IN CONNECTION WITH ALLEGATIONS
BY SENATOR JOSEPH R. MC CARTHY

With reference to the case of [REDACTED], on whom the Bureau orally supplied information to the State Department, you inquired, "Was this instance one of the 'delicate' ones? What I fear is that we are allowing exceptions which should be few and far between to become an all too common a practice. H."

The information in question, which was orally given to the State Department, dealt with the homosexual activities of [REDACTED] and was, at that time (January 17, 1946), considered highly delicate and something which the Bureau did not then confirm in writing. The policy at that time was that this information was passed on orally and merely a notation placed in the file that the information was given. The practice now, however, is that we do give the information, and, when on an oral basis, it is confirmed in writing.

*Maybe so but I think we
were stretching need for
delicacy even then. If
facts are facts we ought
to report them in the regular
manner.*

In connection with a specific request by the Attorney General as to the substance of the oral data furnished by the Bureau to the State Department in two of the eighty-one cases mentioned by Senator McCarthy, the Bureau wrote the Attorney General on July 17, 1950, and set out the facts concerning this matter.

The Director commented on a routing slip as follows:

"Just how extensive is the practice of orally advising other Government agencies of such information without written confirmation? It seems to me it opens us to possibility of real embarrassment. H."

In connection with the question raised by the Director, the general policy is to furnish written information. Oral information is furnished in only a small percentage of the matters discussed by our Liaison Representatives and this is subsequently confirmed in writing.

It might be pointed out, however, that in some instances in connection with delicate situations the Bureau's Liaison Representatives are instructed to furnish information orally to other Government agencies and in these situations no confirmation is usually given in writing. In these instances the Bureau file will contain a record covering the matter either by a written notation or a memorandum.

PURPOSE:

To advise you the attached material, found at the Sherman Hotel, Chicago, on August 16, 1950, pertaining to allegations by Senator McCarthy concerning Communists in the State Department, contains no data not previously known to the Bureau; and to recommend that the attached material be returned to Senator McCarthy.

BACKGROUND:

By memorandum dated August 24, 1950, the Chicago Office forwarded to the Bureau seven documents which had been furnished by [redacted], Chicago, Illinois. At the time [redacted] turned this material over to the Chicago Office he advised that he had found the documents in the Crystal Ballroom of the Sherman Hotel, Chicago, at about 9:30 P.M., on August 16, 1950.

The Chicago Office has advised that [redacted] Sherman Hotel, had informed them on August 18, 1950, that the National Food Distributors had held a conference in the Crystal Ballroom of the Hotel Sherman on August 16, 1950, at which conference Senator Joseph R. McCarthy was a speaker. An examination of the documents reflects that all the material contained therein has previously come to the attention of the Bureau in connection with the allegations by Senator McCarthy concerning Communists in the State Department and has previously been appropriately handled. The documents furnished by [redacted] appear to be material used by Senator McCarthy in connection with his speech before the National Food Distributors Conference on August 16, 1950.

Specifically, the documents found by [redacted] are as follows:

1. The case presented to the Senate as a typical file covering individuals whose cases were given to the Senate and Senator McCarthy.
2. Information concerning the Ambassador Jessup case.
3. Photostats of two documents appearing in newspapers stapled with a letter to Honorable Joseph R. McCarthy dated July 10, 1950, from J. Edgar Hoover.
4. A file on Chew Hong and Dr. Chi.

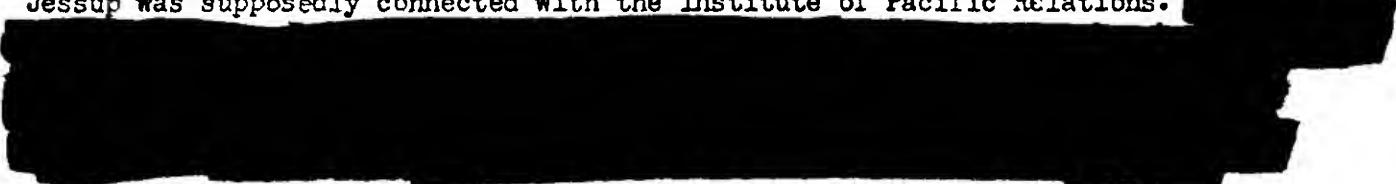

Attachment

SEP 8 1950

5. Page 30 of a 106 page secret report prepared by a State Department Security Officer for the head of the Security Division.
6. A report dated June 10, 1947, from the Sub-Committee of the Senate Appropriations Committee.
7. A statement received from a State Department employee who worked on a project of removing all evidence of Communistic activities, etc., from the files of the State Department employees.

With regard to Document No. 1 listed above, it is noted that this document is identical with the "exhibit" which served as the basis for the Bureau's investigation in the case entitled "Unknown Subject, Source of Senator Joseph R. McCarthy's Information Regarding Government Employees, Removal of Government Property, Loyalty of Government Employees." (121-23278)

Document No. 2 consists of ten pages of miscellaneous material concerning Ambassador Philip C. Jessup showing his purported relation with various Communist front organizations and containing copies of four checks reflecting contributions to the Institute of Pacific Relations by Frederick V. Field during the time Ambassador Jessup was supposedly connected with the Institute of Pacific Relations.

Document No. 3 consists of two pages of material. The first page reflects an article from the New York Herald Tribune dated June 22, 1950, and on the same page appears a reproduction of an article from the New York Times dated June 22, 1950, concerning the Tydings Committee's investigation of Senator McCarthy's charges of Communists in the State Department. The second page of the document is a reproduction of a letter from you to Senator McCarthy dated July 10, 1950, informing him that the FBI had not as of that date made an examination of the 81 State Department loyalty files and advising him that the Bureau was not in a position to make any statement concerning the completeness or incompleteness of the State Department files.

Document No. 4 consists of fourteen pages of material concerning one Chew Hong and Dr. Kung Chuan Chi in relation to the Owen Lattimore case. It is noted that this identical information was previously furnished to the Bureau. Efforts to prove or disprove the allegation that Owen Lattimore "loaded" the Office of War Information with pro-Communists and anti-Chiang Kai-shek personnel are at the present time being made in the Lattimore case.  The data concerning Chew Sih Hong and Dr. Chi, as well as the attached picture, is duplication of material already in possession of the Bureau and is therefore considered of no interest in so far as the Owen Lattimore case is concerned.

Document No. 5, which purports to be page thirty of a secret report prepared by the State Department Security Officer for the head of the Security Division, contains the charts previously alleged by Senator McCarthy to have been prepared by the FBI showing the number of "agents," "Communists," "sympathizers" and "suspects" in the State Department as of May 15, 1947. This material has long since been in possession of the Bureau and has been appropriately handled.

Document No. 6 is a copy of a report dated June 10, 1947, from the Subcommittee of the Senate Appropriations Committee to Secretary of State George C. Marshall calling his attention to conditions which had reportedly developed and still flourish in the State Department under the administration of Dean Acheson. The report alleges that there was a deliberate, calculated program being carried out not only to protect Communist personnel in high places but to reduce security and intelligence protection to a nullity. This report appears to refer to [REDACTED] since he was at one time head of the Office of Controls Section of the State Department and was a cousin of [REDACTED] a former State Department employee and a subject in the Gregory Case.

Document No. 7 is a reproduction of a signed statement of Paul E. Sullivan, former employee of the State Department, dated July 6, 1950, concerning his employment with the State Department and alleged "stripping" of derogatory material from the State Department personnel files. This signed statement has previously been made available to the Bureau and appears to be of no additional interest.

ACTION:

Photostatic copies of the seven documents mentioned above have been made for the completion of the Bureau's files. Inasmuch as all the material contained herein has previously been made available to the Bureau and appropriate action taken there appears to be no further action necessary concerning this material. Inasmuch as the material was without doubt left in the Crystal Ballroom of the Sherman Hotel by Senator McCarthy on the occasion of his speech on August 16, 1950, it is recommended that a representative of the Bureau contact Senator McCarthy and advise him of the manner in which this material came into the possession of the Bureau. If it is definitely determined at that time that the material belongs to Senator McCarthy it is further recommended that the material be returned to him.

ADDENDUM:

Subsequent to the typing of the above memorandum a letter was received from the Chicago Office forwarding another complete set of seven documents identical with those listed above. No explanation was given by Chicago as to how they came into possession of this second set of documents. However, the existence of more than one set of such documents indicates that the documents furnished by [REDACTED] were

not personal documents inadvertently left in the Sherman Hotel by Senator McCarthy, but probably documents which he had prepared for distribution to the audience at the time of his speech there on August 16th.

In view of this fact, and since the documents contain no material not previously known to the Bureau, it is suggested that the above recommendation be reconsidered and the material not be returned to Senator McCarthy, and that no further action be taken.

OPEN LETTER

for release A.M. editions - July 3, 1950

Honorable Frank Buchanan
House Select Committee on Lobbying Activities
Washington, D. C.

My dear Mr. Buchanan:

Joseph R. McCarthy

At your request we furnished your Committee on June 8th with all the information you requested.

Our Government has certain documents which I, as an interested citizen, would like to see. These have been kept secret from me, and from you, yet they must be known to our sworn enemies, the servants of the Soviet Union. I hope you will agree I am as entitled to these as was Mr. Jaffe of AMERASIA to the documents from John S. Service. The State Department approved Mr. Service's actions. I wrote Senator McCarthy asking him to request them of Senator Tydings. Copy of letter enclosed. So far I have no answer.

It occurs to me that if your Committee is authorized to ask sweeping and confidential information of taxpayers, you might also be authorized to ask specific data from our servants, the Executive departments. Hence I am forwarding to you this letter to Senator McCarthy with a request for the documents enumerated. I can assure you that each of the 17 enumerated actually exists.

If public opinion is to have confidence in our President in this present crisis, it must know who disarmed the free nations, who betrayed Poland and China, etc., etc. If the same people, or their proteges, are still guiding our destinies, we want to know. These 17 documents will make it clear to us and to the Governments of the rest of the world, who now fear the worst.

Hoping you will have these documents ready when you call me before your Committee, I am,

Most respectfully yours,

Alfred Kohlberg

My dear Senator:

Senator Tydings (Dem.) recently said that the Communist Magazine AMERASIA had only been given 1700 classified Government documents--mostly "teacup gossip." Only 1% were top secret, he said.

As publisher of PLAIN TALK for the past four years, I haven't received a single classified government document. It isn't fair.

Could you ask Senator Tydings to ship me 1700 such documents. I don't care if 99% are "teacup gossip," if that's the kind of stuff Secretary Acheson deals in 99% of the time. I always suspected as much. His statement in 1945 that Russia was entitled to a "friendly government" in China may be "teacup" too. 400 million Chinese "teacups."

What I am most interested in is the 1% of top secret documents. I would like my 17 to be:

- (1) The secret report that Prime Minister Mackenzie King of Canada brought in person to President Truman in 1945 naming 150 of the Soviet atom spies in the U.S.A.; of whom not one has been arrested.
- (2) The secret agreement of Teheran, dated December 1945, turning over Poland to the U.S.S.R.
- (3) The full Henry Wallace report on China, written by Lattimore (about 70 pages) and the two telegrams by Wallace from New Delhi dated June 28, 1944.
- (4) The telegram from Roosevelt to Chiang Kai-shek dated Quebec about Sept. 19, 1944, demanding the turning over of the civil government to Stilwell and the Commies on pain of breaking our alliance and throwing China out of the U. N.
- (5) The secret instructions to General Marshall when he left for China about Dec. 15, 1945.

(6) The orders to General Eisenhower to stop General Patton's advance in Czechoslovakia and his own advance on Berlin, so the Russians could have both.

(7) The White House order, signed by Lauchlin Currie, about June 1945, countermanding the Joint Chiefs of Staff order to General Eisenhower assigning surrendered German arms to China. It ordered all destroyed, instead.

(8) The secret order to General Sultan in India, about July 1945, ordering all arms, ammunition and planes, en route to China (both American and Chinese Lend-lease) destroyed.

(9) The secret G2 report on the Katyn Massacre, where the Russians, in 1941, slaughtered 10,000 surrendered Polish officers.

(10) The secret Potsdam Agreement, July 1945, recognizing Soviet supremacy in all the undeveloped, backward areas of Asia.

(11) General Douglas MacArthur's report of 1948 to the Secretary recommending policy for the Far East.

(12) The full list of assets, of all kinds, of former Prime Ministers H. H. K'ung and T. V. Soong of China, which Assistant Secretary of State Hickerson claims total \$850 million. Senator Knowland informs the Senate that Messrs. K'ung and Soong authorize its publication.

(13) The secret Memo of conversation with Prime Minister Nehru of India last Fall, advising that he recognize Communist China, to be followed by Britain and then by us.

(14) The secret Memos from Lattimore, to Jessup, to Trygve Lie, to Abraham Feller, advising that Nationalist China be replaced on the Security Council of U. N., even without recognition, and that the United States would approve.

(15) The secret White House order for the postwar destruction of American arms and planes in Europe, accounting for the full equipment of more than 60 divisions, according to the Hoover Report. Secretary Acheson now wants you to vote new billions to replace these arms for our European allies (?).

(16) The 30 other secret reports by so-called Far Eastern experts, which the State Department says were requested by Ambassador Jessup at the same time as the Lattimore Report of last August.

(17) The secret agreement on China, dated Moscow about Dec. 27, 194

If I get these 17, I won't be fussy about the other 1683 pink "teacup gossip" secret documents. Tell Senator Tydings to just bundle them up and send them along--express collect.

Possibly Senator Tydings might like to consult former Senator Wheeler of Montana (Dem), now living in retirement in Washington. Senator Wheeler sprung the Teapot (not teacup) Dome scandals in 1924 and demanded the files be opened. When Attorney General Daugherty (Rep.) refused, Republican President Coolidge fired Daugherty and opened the files. The press applauded.

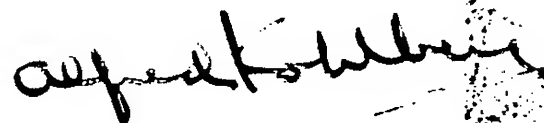

Those who know that Louis Budenz realized that unsavory items in his past would be exposed if he dared to speak out against Communism admire his courage and wonder what threats are silencing others.

Although I know you are a Wisconsin farm boy, I hope there is enough Irish in you to enjoy a good fight. With the mountain of evidence you have, and the stuff that Asst. Sec. of State Peurrifoy, Asst. Att.-Gen. McInerney, Senator Chavez and the Whitewash crew are spilling, you can't lose.

Some day before the Far East is lost and Washington, Oregon and California have become our front line, I hope we'll get responsibility out of the hands of the pink "teacup" boys into the hands of an American like Douglas MacArthur. General MacArthur will have the responsibility, anyway, when the chips, or bombs, are down. Why not give him the authority and responsibility now?

Congratulations on the job you are doing.

Sincerely,

Alfred Kohlberg

In response to your inquiry as to whether the FBI reviewed the State Department personnel files that were under consideration by your Committee for the purpose of ascertaining whether reports submitted by the FBI to the State Department were incorporated therein, this is to advise you that at the request of the Attorney General, we did make such a check on July 13, 1950 and found that the State Department files were intact, as indicated in the letter from the Attorney General to you dated July 17, 1950.

With best wishes and kind regards,

Sincerely yours,

J. Edgar Hoover
